An extract from letter No. 47 dated
 the 14th Instant from the Superintendent,
 GOVERNMENT OF MYSORE
 Government Press, Bangalore

(b) The present building or even the
 additions will allow of little or no
 augmentation of the piece work and
 temporary establishments so far as the
 case department is concerned, the
 present accommodation being found
 insufficient, hence the present
 additions. An upper storied building
 might however will be added to
 accommodate more compositors

(c) As regards type it would be useless
 getting a large amount unless there is
 more accommodation to put it. The only
 available accommodation at present
 is the verandahs of the present
 building and in which galley rack

No. 2730

MYSORE P. W. DEPARTMENT,
SUPDG. ENGINEER'S OFFICE.

17th August 1898

From

The Superintending Engineer of Mysore,
Eastern Circle.

To

The Chief Engineer of Mysore

SIR,

Referring to your endorsement
No 4266 of 29th ultimo (herewith returned)
on the General and Revenue Secretary's
No 1319 of 25th idem regarding providing
additional accommodation in the Press-
Building at Bangalore, I have the
honor to report that I inspected that
building on the 5th instant in company
with the Press-Manager. I had
requested the Press Superintendent to
meet me at the ^{Press.} Palace, but he could
not do so as he was on leave at the
time

time. He had, however, left necessary instructions with the Manager.

2. The Manager showed me the whole of the building. I was satisfied that additional accommodation was very necessary for the new machinery and storage of materials, and also for many additional hands that were either sanctioned or applied for. The Superintendent proposes erecting an upper storied building in the court-yard of the present building but I am afraid this would interfere seriously with light and ventilation of the present building where some three hundred hands are at present working.

However, a plan and estimate amounting to Rs 11805 as per Superintendent's proposal is herewith submitted.

3. I think a better plan would be to build an upper story either over the front

front block of the present building, in that of
 the Stationary Building in front. The front
 blocks of both these buildings are exactly
 alike, but an upper story over the former
 would be more convenient to the Press,
 while that over the latter would improve
 the appearance of the place. It is enough
 plan and estimate as for the proposal is
 also prepared and submitted herewith.
 4. It will be observed that both the
 estimates amount to very nearly the same
 figures.

I have the honor to be,
 Sir,

your most Obedient servant,

Yours
 Wm. B. Ewing

intended 1/16/98: for order
with reference to 'Lent' Eng's
letter no. 1319 dated 25-1-98
1/98 - marked by ship -

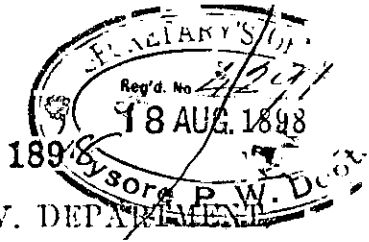

A project of Rs 12772 was
submitted by Govt on 8 Dec 1971
for extending the stationing of
12 rooms each 60' x 18' with
8 feet verandah, for the pur-
pose of providing add'l accom-
modation in the Press - also a separate
building with out-houses, for the
dormitory. Work is in pro-
gress - Rs 4762 spent to date.

It is proposed that the Supd.
Engineer should take into consideration
the add'l accommodation to be
provided in the Press - to be offered in the
completion of this work.

There is no provision in
the Budget for the further extension
now proposed - 24/8

MYSORE P. W. DEPARTMENT,

SUPDG. ENGINEER'S OFFICE.

26th October — 1898

From

The Superintending Engineer of Mysore,

Eastern — Circle.

To

*The Chief Engineer
— of Mysore.*

SIR

With reference to your no. ~~1111~~ of 28th August last, returning with certain observations the alternative project is providing for additional accommodation required for the Government Prep Buildings at Bangalore — I have the honor to submit herewith a fresh plan with an estimate amounting to ~~Rs~~ 12,720/- for extending the wings of the existing building with a view to afford the extra accommodation needed, and to state that this proposal has met with the approval of the present Superintendent of the Prep.

II. The proposal to build an upper storey over the front block of the Stationery building was considered

level had to be "given up" as it was found from calculations that the existing foundation and walls would not safely bear the weight of such a structure.

III. The extensions now proposed ~~is~~
(Marked with red ink on the tracing) would
be roofed with pueka terraces and finished
off with gable ends and parapet walls
in harmony with the present facade. This
it was thought advisable to adopt, as
the Superintendent ^{has} prominently brought
to my notice that the sloping terrace
over the present building leaks.

14 To afford sufficient light it is considered necessary in addition to sky-lights over corridors to install ^{several} 2' x 2' squares in the roof over the proposed extension.

I have the honor to be
